Saves you a discount of 4.1 yuan : 72 folding Author: identification Sun Chang. Yao Pingzai Publisher: People's Education Publishing Date :2005-3-1 ISBN: 9787107182754 Words: 213.000 yards: 269 Revision: 1 Binding: Paperback Editor's Summary mathematical abilities have different hierarchy: An intelligence as one of the basic ingredients of mathematical ability. which is in the deep structure of mathematical ability. its development and changes more slowly. mostly psychological the measurement scientist and cognitive development psychologist studies the object form mathematical cognitive structure; another in mastering the basic mathematical concepts. mathematical ability. which is in the middle-level structure of mathematical ability. its development and changes slightly faster than the former. for the book object; final in learning mathematical knowledge. skills. math ability. its development and changes faster than the previous two. is the object of the educational psychology or mathematics teaching psychology research. However. this distinction is relative. mental activity. these levels are closely linked. Reform of mathematics education in primary and secondary schools. has become the focus of world attention. Because the math teaching students to learn not only to the necessary computing skills and techniques. and to lay a solid foundation for further learning. it is more important to promote the development of students' logical thinking through mathematics teaching. Characteristics of mathematical thinking is concise and orderly reasoning. logical coherence. accuracy. flexibility. agility. and a high degree of abstraction. The quality of this series thinking is engaged in the work. especially the rapid development of new technology indispensable...
