## A NEW THEORY ON ATLANTIS ATALANTE AND THE PERSIAN EMPIRE

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 64 pages. Dimensions: 9.0in. x 6.0in. x 0.1in. Few subjects generate more of a mixed sense of wonder and disdain than that of the Lost Continent of Atlantis. For centuries now, scholars and charlatans and True Believers have launched upon an Indiana Jones-like quest to be the first to discover what Ignatius Donnelly in 1882 called the antediluvian world. The myth of Atlantis has evolved considerably since Platos time. It is now often thought of as a sort of high-tech or magical utopia, ruled over by super-sophisticated beings. The city or country of Atlantis is commonly associated with aliens or ancient astronauts, UFOs, crop-circles, imaginary planets and the like. Psychics such as Edgar Cayce, J. Z. Knight and Gordon Michael Scallion have weighed in, and national or ethnic pride has encouraged many a patriotic pseudo-scientist to find this sunken land pretty much everywhere and anywhere. So silly has become the study of Atlantis that professional academics now inevitably choose to shun the topic entirely, rather than have their reputations tarnished by the stigma of New Age nonsense that drowns the Lost Continent just as surely as the sea did all those millennia ago. This is a shame, of course, for certainly Platos account is worth examining critically and objectively. In this book author August Hunt presents a logical analysis of Platos story. Boring though logic can be , if logical fallacies can be avoided a person has a fighting chance to obtain a workable hypothesis. When dealing with arcane matters for which little or no evidence exists, a workable hypothesis is the most one can hope for. This item ships from La Vergne, TN. Paperback.
