GAO found that HHS needs to: (1) develop a planning process that would identify current priorities and programs, and provide staff with a better sense of policy and management preferences; (2) develop a more systematic approach to work-force planning to ensure that its staff is adequate and able to effectively operate its programs; (3) modernize its management support systems so that it can provide the necessary staff and funds to support its activities; and (4) restructure the role of the chief of staff to prevent organizational conflict among key departmental leaders. GAO also found that HHS needs to: (1) refine Medicare hospital prospective payment system, improve controls over payments for physician and related services, and develop a strategy for addressing long-term health care problems; (2) develop benchmarks for health care services and refine the methods used to compute Medicare payments for services provided; and (3) develop a strategy to efficiently and economically finance long-term health care. In addition, GAO found that HHS needs to: (1) preserve the financial health of the social security program to ensure further accumulation of sufficient fund reserves to handle fiscal contingencies; (2) issue personal earnings and benefit statements in order to enhance public confidence in and increase awareness of the social security trust funds; and (3) provide strong leadership to establish performance standards, encourage states to use proven collection techniques, and promote automated child support enforcement systems.
